

US Ring Size Guide

Before measuring your ring size, be sure this guide is printed in US Letter size and scaled to 100%. You can check the accuracy of your print by positioning a credit card on the line below or placing the correct coin in one of the labeled ring sizes. If the card or coin lines up, you're all set.

Option 1: Measure By Matching

To find your ring size, use an existing ring that fits you well. Match the inside of that ring with one of the circles below. When your ring has been placed on the right size, you should only see the white circle—with no gray space—inside your ring. If your ideal fit falls between two sizes, choose the larger size.

Option 2: Measure By Ruler

After you cut out the ruler, carefully cut the line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end through the slit. To make sure the ring will fit comfortably, we suggest also measuring your knuckle. We recommend selecting a size that goes on and off your finger easily.
